PROJECTS

Weather Web Application (ReactJS)

- Developed a real-time weather web application using ReactJS.
- Integrated a weather API for accurate data retrieval and display.
- Ensured a responsive and user-friendly UI for optimal user experience.
- Managed state within React components for dynamic updates.

ReactJS Book Store Application with API Integration

- Developed a dynamic and responsive book store web application using ReactJS.
- Integrated a RESTful API to fetch and display book information, providing real-time updates to the user interface.

- Implemented state management within React components to handle user interactions and ensure a seamless browsing experience.
- Designed and styled the user interface using HTML and CSS focusing on an intuitive and visually appealing layout.
- Utilized version control (Git) to manage and collaborate on the project.
- Demonstrated proficiency in front-end technologies, including ReactJS, HTML and CSS to create a modern and engaging user experience.
- You can check my GitHub account on this link for more projects: <https://github.com/Nebajooo>

VOLUNTEERING

Red Cross(ICRC)

[Mizan-Tepi Unviersity , 21/11/2017 – 29/09/2021]

- Contributed to community projects and disaster response.
- Played a key role in member management.
- Developed skills in teamwork, crisis management, and community outreach.
- Upheld Red Cross principles for effective assistance.
